PODIS[®] Plus

PODIS Plus harnesses sophisticated reporting and data analysis

Secure integration provides data when and where you need it

PODIS Plus is strengthened by your practice's management system, ensuring relevant data appears where and when your staff needs it, including:

- Charge and payment data
- Tracking for samples, research drugs, patient-specific medications, and drug levels
- Tracking from order delivery through full reimbursement receipt
- End-of-month inventory

Getting PODIS Plus integrated with your important record systems is seamless. Your staff can let the PODIS Plus team lead our tried-and-tested implementation process: we send you the printer and scanners, arrange training, and make sure everything is ready before you go live. Your practice will benefit from a smoother and faster workflow and increased accuracy and captured revenue while reducing the administrative burden.

Our reports, alerts, and integrations are scalable and can fit any practice size and workflow, delivering only the most needed and relevant data. Find out how quickly you can feel a difference in inventory and revenue cycle management.

Learn more about the seamless and secure integration of PODIS Plus.

What's new in PODIS Plus

Recent updates and enhancements

We're constantly enhancing PODIS and adding new features to streamline workflows help users get the information they need every day. These are just a few of the recent changes:

- You can now customize the home page dashboard to show the information you need at your fingertips
- Easier ordering: order straight from the inventory forecast report
- Better handling of manufacturers' 2D barcodes

Plus a full pipeline of new features coming in 2024!
