PODIS® Plus

The power of reporting with PODIS Plus

Real-time reports help manage your practice

Unleash the power of PODIS Plus. By adopting our powerful inventory management solution, your practice opens doors into a world of sophisticated reporting and data analysis capabilities.

Your entire staff – from your doctors to administrators to financial teams – can simplify their workflow, save time, and improve efficiency with reporting and analysis features including:

- **Financial:** identify unbilled or misbilled doses, profit per dose, and the value of your current inventory
- **Management:** track the use of PODIS Plus by staff, including order placement, product dispense and product transfer
- **Inventory:** view on-hand inventory counts and valuations across your locations in real-time and see that same information for dates in the past

The user-friendly analysis tools offered through PODIS Plus make it easy to understand your inventory data. Learn how to reduce financial risk, identify opportunities, and address challenges with confidence.

What's new in PODIS Plus

Recent updates and enhancements

We're constantly enhancing PODIS and adding new features to streamline workflows help users get the information they need every day. These are just a few of the recent changes:

- You can now customize the home page dashboard to show the information you need at your fingertips
- Easier ordering: order straight from the inventory forecast report
- Better handling of manufacturers' 2D barcodes

Plus a full pipeline of new features coming in 2024!
