AmerisourceBergen

Dear Ashley,

You care about your patients and so do we.

That's why we launched our enhanced AdvancelQ Network. Together, we will ensure that your patients are able to participate in studies and clinical trials across the board that benefit their health and longevity.

[Join AdvancelQ Network for free](#)

Four key improvements and opportunities:

1. Enhanced **access to research opportunities** through our established relationships with biopharma partners
2. Access to the **latest therapies** in clinical development
3. **Dedicated research liaisons** that support your practice in expediting site startup, providing information on trial detail/research, and ensuring adequate study trainings
4. **Easier enrollment process** with a more streamlined process for budgeting and contracting between sponsors and research network sites

Four key benefits of AdvancelQ Network:

- Absolutely no cost to your practice
- Non-exclusive – you can participate in any interesting research available
- Access to digital solutions that identify patients and expedite enrollment
- New revenue streams for your practice

We are eager to work together with practices that share our values and our focus. Together we can provide your patients with clinical trial opportunities that will help save lives.

Kind regards,

Ganiat Mumuney
Sr. Manager, Clinical Research
IntrinsiQ Specialty Solutions, AdvancelQ Network
